---

**SUMMARY:** Web developer with 1.5+ years of experience, eager to learn and grow.

**SKILLS:** ReactJS, Javascript, HTML, CSS, Tailwind, API, Git/Github, Linux, WordPress.

## PROJECT:

Harry Potter Fandom Website | ReactJS | [Website Link](#) | [Github Repo](#) | March 2024

- I designed and developed a ReactJS application that allows users to learn about the Harry Potter Universe.
- I utilised the core concepts of ReactJS like components, hooks, states, props, and routing.
- I learned how to fetch data from the API and integrated it into the React app.
- Building this web project, I gained a strong understanding of how to use ReactJS to create dynamic, data-driven web applications.
- This project also solidified my knowledge of the fundamentals of ReactJS, like components, states, hooks, and props.

## WORK EXPERIENCE:

Web Developer | Marconix Sales Solution Pvt Ltd. | Bangalore, KA | Jun 2024 - Present

- Created a 30+ page custom WordPress website with tailored design elements.
- Working on a comprehensive recruitment management system, handling both frontend and backend.

Web Developer | The Teachief Academy | Kolkata, WB | Feb 2023 - Feb 2024

- I worked as a web developer and created over 7 custom WordPress websites, independently handling the development to the deployment process.
- I also utilised backend WordPress technologies to collect user data and emails.

## INTERNSHIP:

Full Stack Developer | ColorBracket Technologies | Durgapur, WB | Sept 2022 - Jan 2023

- I worked on the Food Delivery Website, using ANGULAR to create different user interfaces.
- Implemented APIs to connect the web application to the Back-End.
